PROFILE

Greg is A highly motivated, passionate and resourceful petroleum geologist with wide ranging business, technical consultancy, training and knowledge / quality management experience, addressing exploration to reservoir-scale issues. He is particularly experienced in the integration of diverse datasets from all specialist sub-surface disciplines, including: geophysics, petrophysics, engineering and all branches of geology.

EXPERIENCE

Greg is a Petroleum Geologist with more than 25 years' experience offering technical consultancy services to exploration and production teams around the globe. In the last 10 years he has focused on the delivery of a wide range of petroleum geoscience courses and workshops to clients throughout Europe, Africa, the Middle East and Asia.

He has worked on more than 100 different oil and gas fields, for more than 50 clients, including clastics and carbonates reservoirs, from all major depositional environments.
